Dear Dr. Allen;

I have received your letter of March 6, 1985 concerning possible additional support for the Houston meeting. Although our original contribution represented the maximum amount we give for meeting support, your request for supplemental funds was discussed. I regret that a second authorization could not be approved.

Please realize that this in no way reflects our assessment of the worth of the symposium. Rather, it results from an unprecedented competition for our very limited funds. We sincerely wish you every possible success in balancing your needs with the support available and we are confident the meeting will be a success.

Sincerely,

Harmon C. McAllister
